

TELEGRAPHIC NEWS.

Occupation of Kinston.

NEWBERN, March 16, 10 A. M.—Our forces now occupy Kinston, and are repairing the railroad bridge across the Neuse river, which will be finished in a few days.

The enemy was demoralized, and on leaving Kinston for Goldsboro, most of the North Carolina troops, from the Eastern part of the State, took French leave of Bragg, and returned to their homes.

The Goldsboro Journal of the 7th inst., states a council of war was held not more than three hundred miles from that city, on the 4th inst., consisting of their leading Generals, among whom was their general leader, General Lee.

The weather is very warm and showery.

The mercury 75° in the shade.

A Colonel belonging to Sherman's army, has just arrived from Wilmington. He states that Sherman will be in Goldsboro on the 20th.

The enemy send no rumors of bad news from Sherman.

The Treasury and Military authorities are in favor of making Newbern and Morehead City declared ports of entry, which will save the people nearly two hundred per cent. on their imports and exports.

Army of the Potomac.

WASHINGTON, March 20.—Information from the Army of the Potomac says:

Cannondale was heard all day Saturday in front of the Ninth corps, without any fire or object, apparently, their to advise our troops that they still had an enemy opposite them.

The 14th and 68th Pennsylvania, performing duty at headquarters of the army for some time past, have been relieved and ordered to City Point. They, with the 30th New York and 61st Massachusetts, are to form an independent brigade under command of Brevet Brig. Gen. Collier, and will occupy the works at City Point.

The 14th and 15th Regiments are ordered in headquarters in place of the 13th and 68th Pennsylvania volunteers.

Sheridan at White House.

BALTIMORE, March 20.—A Fortress Monroe letter of yesterday says an arrival from White House at a late hour last evening, reports the arrival of Sheridan's cavalry force on the north bank of the Patowmack, a few miles from White House, at noon on Saturday. The bridge across the river, which had been partially destroyed the rebels, has been repaired by a portion of General Roger's command, which was sent to White House some days since, in anticipation of the appearance of Sheridan at that place, with his force. They will have no difficulty in crossing the river, which, it was supposed, would be effected by 12 o'clock last night.

General Party.

NEW YORK, March 20.—At Fredericks Hall Station a dispatch from Early was found, saying he was about to attack Sheridan's flank, with 2,000 men, at Goochland, but he was too late by twenty-four hours.

Two days were occupied in destroying the Central road.

The next move was to the Fredericksburg road, marching to two crossings on the South Anna.

One was found defended by Infantry behind earthworks.

A charge was made, the rebels scattered, and their guns captured.

Castor moved toward Ashland Station, and on the way heard of Early again.

The Rebel Ham Stonewall.

NEW YORK, March 20.—The Times Paris correspondent says:

A rebel carnival in that city it was understood that a decision was come to, authorizing Page, commander of the ram Stonewall, to attack the United States fleet in the harbor of Ferrol, Spain. The fleet is composed of the Niagara, Sacramento, and it is presumed, the Iroquois. The Stonewall carries a 300-pounder, and a thick cuirass which leads to some apprehensions as to the result, as our vessels are not encrusted. The Spanish authorities, however, have mounted a heavy battery, and are determined to have their neutrality respected.

Interesting Items.

NEW YORK, March 20.—The Post says the leading dry goods retail houses are marking down their prices to day to correspond with the reduction in the price of gold.

A letter dated opposite Kinston on the 14th, says the Mayor, with a deputation of citizens were on the opposite side of the Neuse, to surrender the city. There are no signs of the enemy. The ram was burned this morning, and is still smoking. The works defending the place now very strong, and the only explanation of their being evacuated is the panic in the rebel army.

Admirable Wrecks.

NEW YORK, March 20.—The schooner Shooting Star, of Boston, went ashore on the 18th, near Narragansett.

The damage by high water to the Erie Railroad has been so far repaired that trains are now running between New York and Checmng, and between Addison and Buffalo.

Wynkoop's Iceland Pectoral.

Diseases of the throat, chestnut pulmonary organs are very prevalent, malignant and dangerous. The properties of a medicine to alleviate, cure and uproot these complaints must be expectorant, sudorific and invigorating, loosening the mucus of the throat, and imparting tone to the entire system. No discovery or preparation has hitherto been made to supersede one like Dr. Wynkoop's Iceland Pectoral. It is indeed with the most astonishing results all cases of bronchitis, influenza, whooping cough, asthmatitis or purulent sore throat, asthma, croup, coughs, &c., nervous irritation, &c.

The Rev. J. L. Parker certifies that "I have used Dr. Wynkoop's Pectoral for several years, myself and in my family, for severe pulmonary complaints, and have recommended it to many others, and have never seen any case where it did not succeed."

Hundreds and thousands of important testimonies could be produced, showing its remarkable curative power.

Gold in Dayton by W. W. Stewart and all principal druggists.

Prepared by Dr. R. D. Wynkoop, and sold by D. Barnes & Co., New York.
